

Enterprise Test Automation Framework

Scalable & Maintainable Automation Solution

Prepared by Hiiho Yuzu

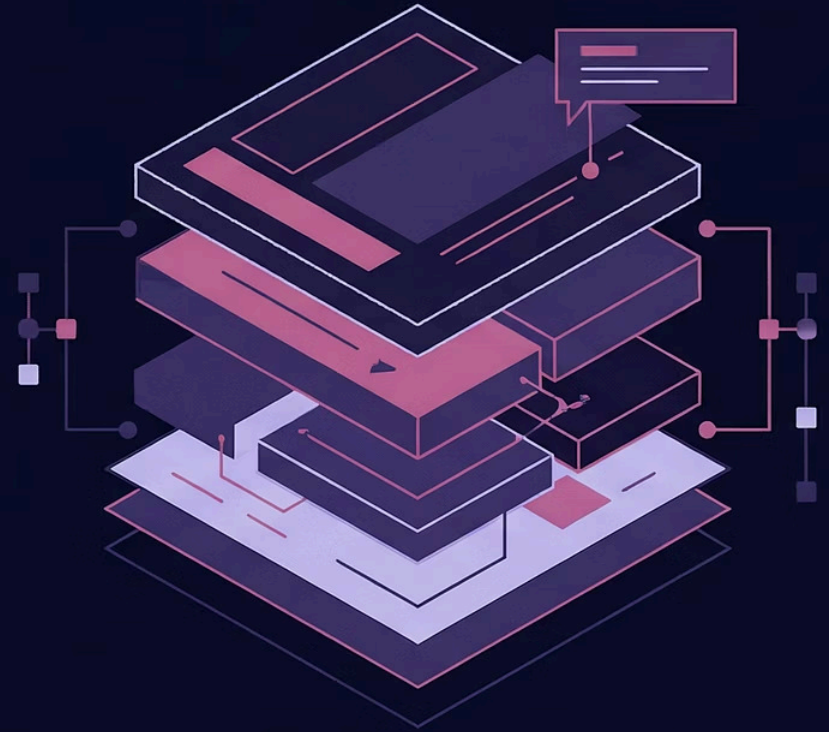

Made with GAMMA

Technology Stack

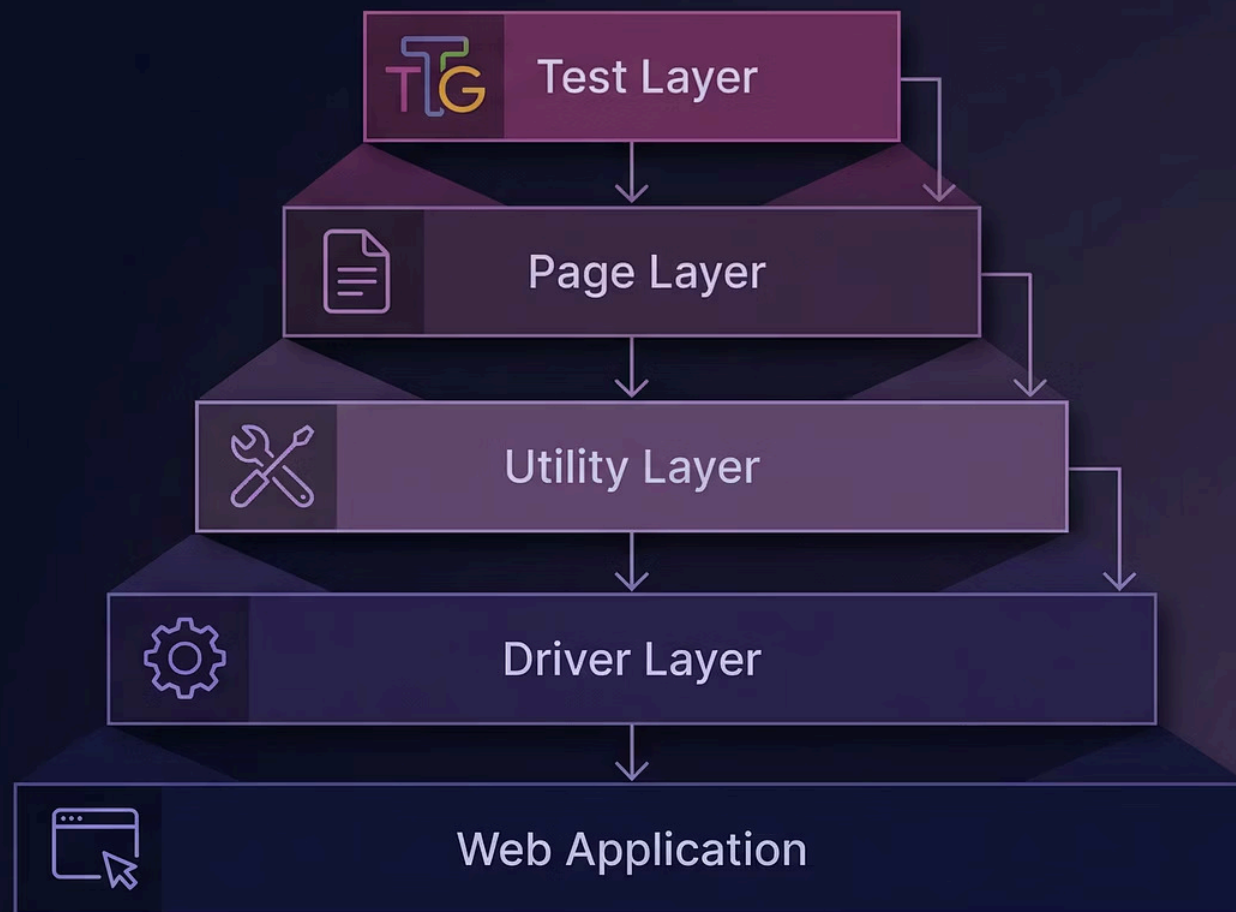

Framework Features

- ✓ End-to-end UI automation
- 📁 Reusable Page Object Model
- 🛡️ Thread-safe WebDriver
- 🕒 Centralized wait utilities
- 📄 Externalized JSON data
- ⌞ JavaScriptExecutor support
- 🏗️ Scalable architecture

Architecture Overview

Challenges Overcome

Before

Dynamic
elements

Click
issues

Sync
problems

After

Explicit
waits

JavaScript
handling

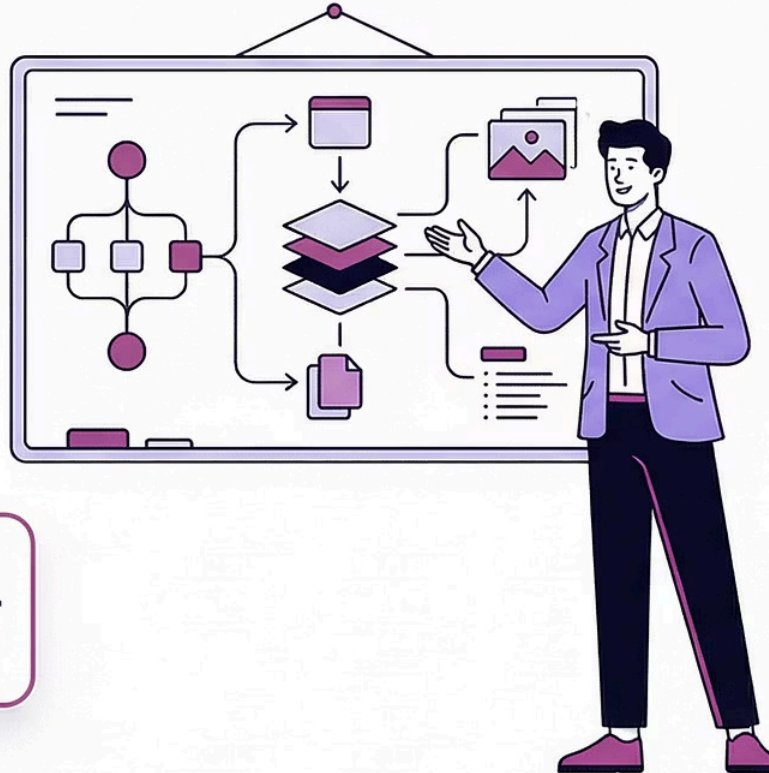

Robust
framework

Key Technical Learnings

**Page Object
Model**

**Explicit
Waits**

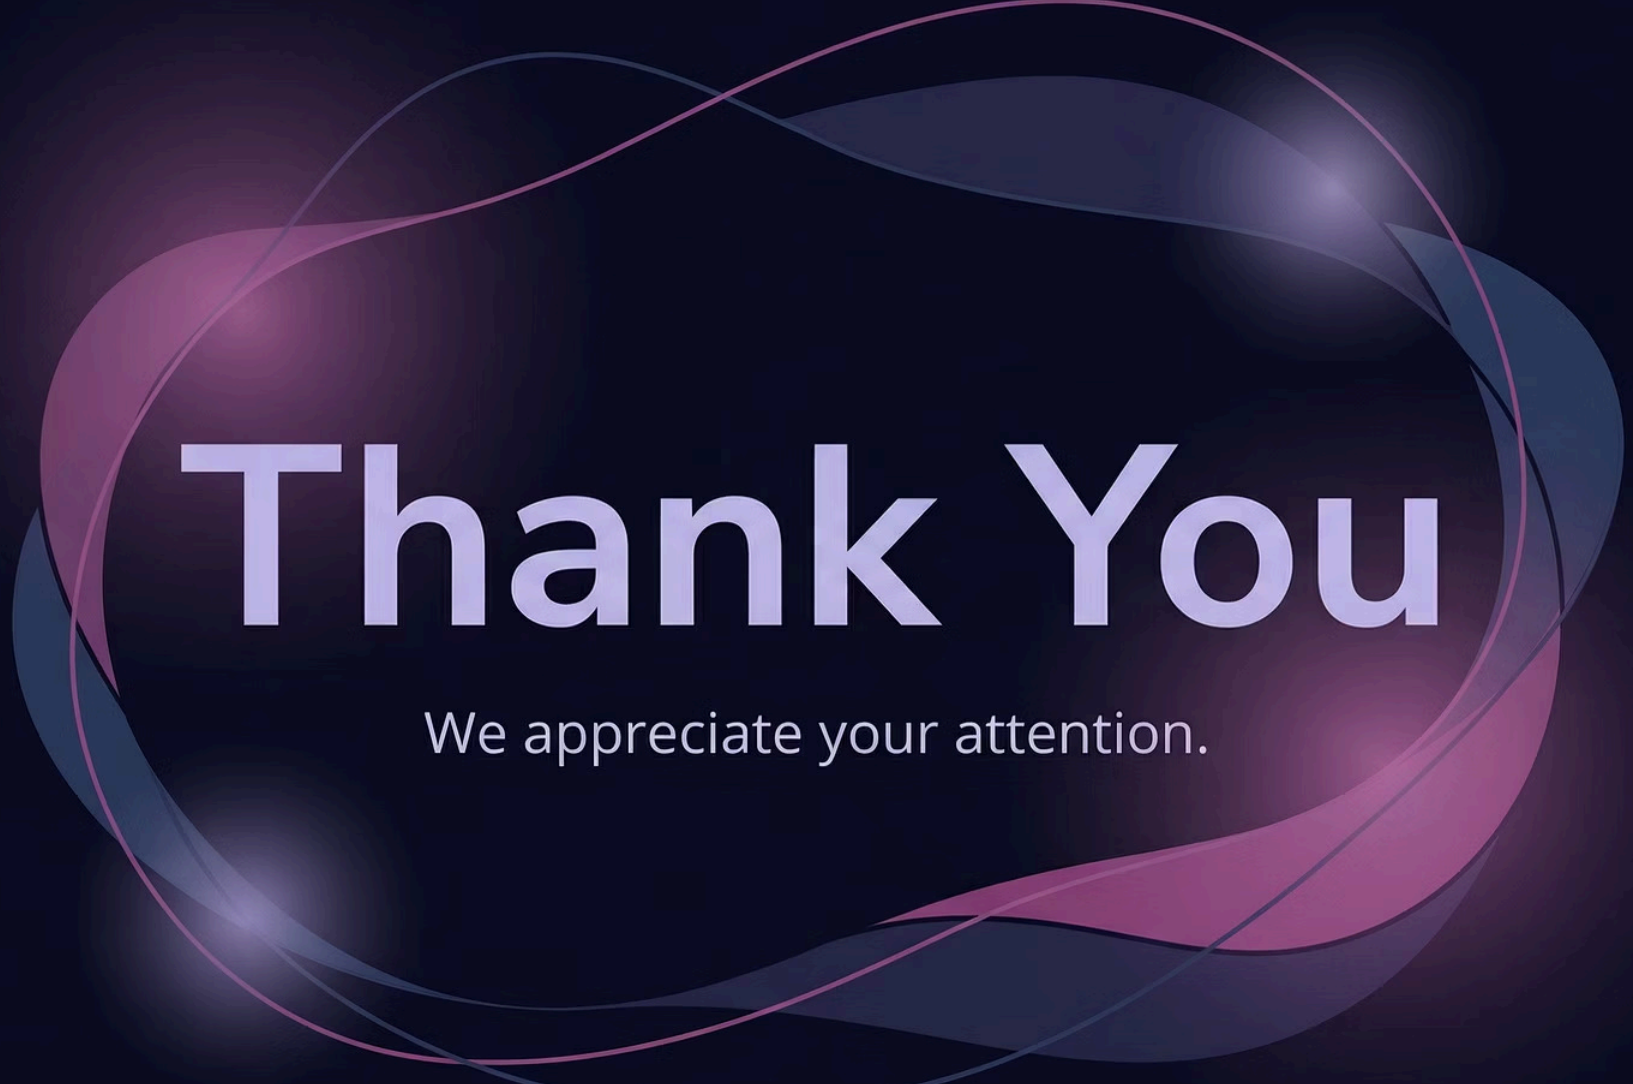

JavaScriptExecutor

**JSON Data
Management**

Future Roadmap

Thank You

We appreciate your attention.
